Hi Joe,

I've talked to a few folks and added some of the science topics (in red below) that you could forward to the NRC...

It might be good to identify a few issues that we think will come up

**Ex. 5 Deliberative Process (DP)**

Ex. 5 Deliberative Process (DP) We'll need issue experts as much as chemical experts.

Sounds good. Here are the candidates, off the top of my head.

Public Comment – Step 4

## Ex. 5 Deliberative Process (DP)

Scoping and Problem formulation – Step 1

**Ex. 5 Deliberative Process (DP)**

We may want to think about another science issue to tee up as well.

## Ex. 5 Deliberative Process (DP)

**Subject:** NRC Support Request

Hello -- NRC would like to productively use the funds that remain in the currently task order. They have requested that we provide an informal heads-up on chemicals/issues that may come up in future public meetings. They could then begin researching potential experts without contacting anyone of course.

I think this is a good idea. Can we put an informal list together today? – I'm thinking back of the envelop effort. If you want, you can just respond with your candidates. I would just call them and let them know the potential candidates. This is informal.....

Thanks

Joe D.
